The name at this confirmed old Miser was Hal lett, and he lived and died in Yarmouth And his was certainly the most extaordinary case of avarice, which we can now call to inind, with the exception of that of Old Siflerton, the found er of the hospital that bears his name in the city of Aberdeen. He was one of the greatest and most wretched men that ever fived - He was very fond of reading, but never would go to the expense of a light and instead of the for his fire he used to keep himselt warm by lugging a bag of stones about his room upon his back He at last denied the necessary of food if procur ed at his own expense, and finally he died of a surfeit at the hou e of a friend '

But enough of these combre, musings Let us turn over a new leaf and if there is any thing like sunshine in the life of a Miser, let us have it. The best thing we can say of one of these beings is to tell the story we recently overheard in one of our Rambles about Town of THE Mi-BER THAT HAD A HEART.

Evans is underliably entitled to this enviable distinction, for whilst no medical authority in "existence condemns it, every medical practitioner that is acquainted with it, freely acknowledgeshits pre-emment virtues and that the latter should do so in apposition to their personal interests, must be autibuted eiter to their. cander and love of truth, or to their unwillingness unbealthy action of the stomach and howels or to fly in the face of all observation, and the testimomy of thousands.

Dr. W. Evans does not pretend that his Camomile Tonic Pills will cure all diseases. He trankly and conscientiously-admits that they will not. He lays no claim to the discovery of the "Philosopher paired constitution; in Nervous diseases of all kinds; in weakness of the digestive organs, in incipient consumptions, whether of the lungs or the liver; in the dreadful debility occasioned by the u-e of purgatives; in palsy, theumalism [more especi-ally) in the sickness incident to mothers, and to females of relaxed nerves; in every case of delirium tremeus, or that disease which is brought on by inemperance; in the wretched horrors of body mind which accrue from occasional inebrity . Evans can conscientiously regnest confidence. He therefore need only add that his Camomile Ponic Pills, together with his excellent Family Aperient Pills, can be obtained wholesale or retail at No. 7, Division street near Chatham square, N. Dr. Wim. She has suffered with pain and distress in the head, a lightness across the head, a lightness across the stomach, shortness of breath, and palpitation of the heart; exercise would almost overcome her; but since using your Camounile Tonic Pills, her complaints are removed - she is able to exercise without fatigue and she is happy to say, can enjoy life com fortably again.

Newark, July 18, 1836 Dear Sir, for four years I have been so unwell that I was unable to attend to my business, and for the last 4 or 5 months was confined in my room, my complaints were rheumatism, pains in my stomach. indigestion and loss of appetite, with continued pain and dizziness in my head; I used different kinds of medicines without effect; until I commenced taking your invaluable Camomile and Aperient Pills ; their beneficial effects upon me-astonish; all who knew my situation in a few days Lenall by at your office to express my grantude to you in person. In May she commenced using Dr W. Evans Camomile and Pamily Aperient Pills, according to the direction accompanying them. A reaction took place; the pains and pressure in her body was re-moved, her mind became clear and strong; her spiries perfectly good, and up to this time is in all re-

JONAS SNYDER. On Low Spirits. Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined.

Ancient writers supposed this disease to beconfined to those particular regions of the abdomen technically called hypochondria which are situated on the right or left side of that cavity, whence comes the

name hypochondriasis.
Symptoms. The common corporeal symptoms are flatulency in the stomach or bowels, acrid eruelations, costiveness, spasmodic pains, giddiness, dimness of sight, palpitations, and often an utter inability of fixing the attention upon any subject of itportance, or enguging in any thing that demands vigor or courage. Also languidness; the mind be-comes irritable, thoughtful, desponding, melancholy and dejected, accompanied with a total derange-ment of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment exhibiten infinite. diversity. The wisest and best of men are as open to this affliction as the weakest.

CAUSES. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse; or exercise, a discolute habit, great exeess in eating and drinking, the immoderate use of mercury, vio lent purgatives, the suppression of some habitual discharge, or long continued eraption; relaxation or debility of one or more important organs with-

in abdomen, is frequent cause.
TREATMENT The principal objects of freatment are, to remove indigestion to strengthen the obdy, and O'eliven the epirite, which may be plumped by exercise, early hours, regular meals and pleasant The howels (if costive) being careconversation. fully regulated by the necksional use of a mild sperient.
